Norovirus/Gastrointestinal Outbreak, Yolo and Sacramento Counties

On 05/15/17, the California Department of Public Health Duty Officer (CDPH DO) and California Department of Public Health Emergency Preparedness Office Duty Officer (CDPH EPO DO) reported to the CSWC that Yolo County has experienced a recent Norovirus/Gastrointestinal Outbreak that is affecting numerous schools in the county.

- 42 schools have been affected.
- 1,820 students, teachers, and staff are ill with stomach cramps, vomiting, and/or diarrhea in schools throughout Yolo County.
- Yolo County Health and Human Services is working with California Department of Public Health (CDPH) and the California Department of Pesticide Regulation (CDPR) regarding the concerns schools have using Bleach.
- Yolo County Health and Human Services will continue to work with Yolo County Office of Education to stop the spread.

Since 05/04/14, there have been reported outbreaks in schools in Sacramento County affecting students and staff. As of 05/16/17, the CDPH Duty Officer reports that:

- 19 public and private schools have reported these outbreaks.
- 1 specimen from an affected individual tested positive for Norovirus in the Sacramento Public Health Lab.

The California State Warning Center (CSWC) and California Department of Public Health (CDPH) continue to monitor the situation and will provide updates as they are received.

SITUATION SUMMARY

2017 February Storms

Cal OES Coastal Region

Pfeiffer Bridge Incident, Monterey County

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- [Solano County: Sacramento River at Rio Vista](#)

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

Cal OES Inland Region

River Forecast - The following rivers are forecast to meet or exceed Flood stage:

Placer County:

- Truckee River at Truckee is forecast to be at flood stage at [4.7](#) feet the morning of [05/23/17](#)
 - Potential Impacts: Flood Stage. Minor flooding from Bear Creek in the Alpine Meadows area to Truckee. Truckee River bike path between the River Ranch at Alpine Meadows Road to Tahoe City begins to flood.

Alpine County:

- West Fork Carson River at Woodfords is forecast to exceed flood stage at [14.0](#) feet the [morning](#) of [05/25/17](#)
 - Potential Impacts: Minor flooding begins in the southwestern Carson Valley between Centerville and Genoa

Mariposa County:

- Merced River at Yosemite at Pohono Bridge is forecast to be at flood stage at 10.1 feet the morning of 05/23/17
 - Potential Impacts: Western portion of North Pines Campground, located at the east end of Yosemite Valley between the confluence of the Merced River and Tenaya Creek, begins to flood. Water rises to the base of the swinging bridge downstream from Chapel Meadow.

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Alpine County: East Fork Carson River at Markleeville
- Stanislaus County: Tuolumne River at Modesto
- [Merced County: Merced River at Stevinson](#)

WEATHER SYNOPSIS BY REGION

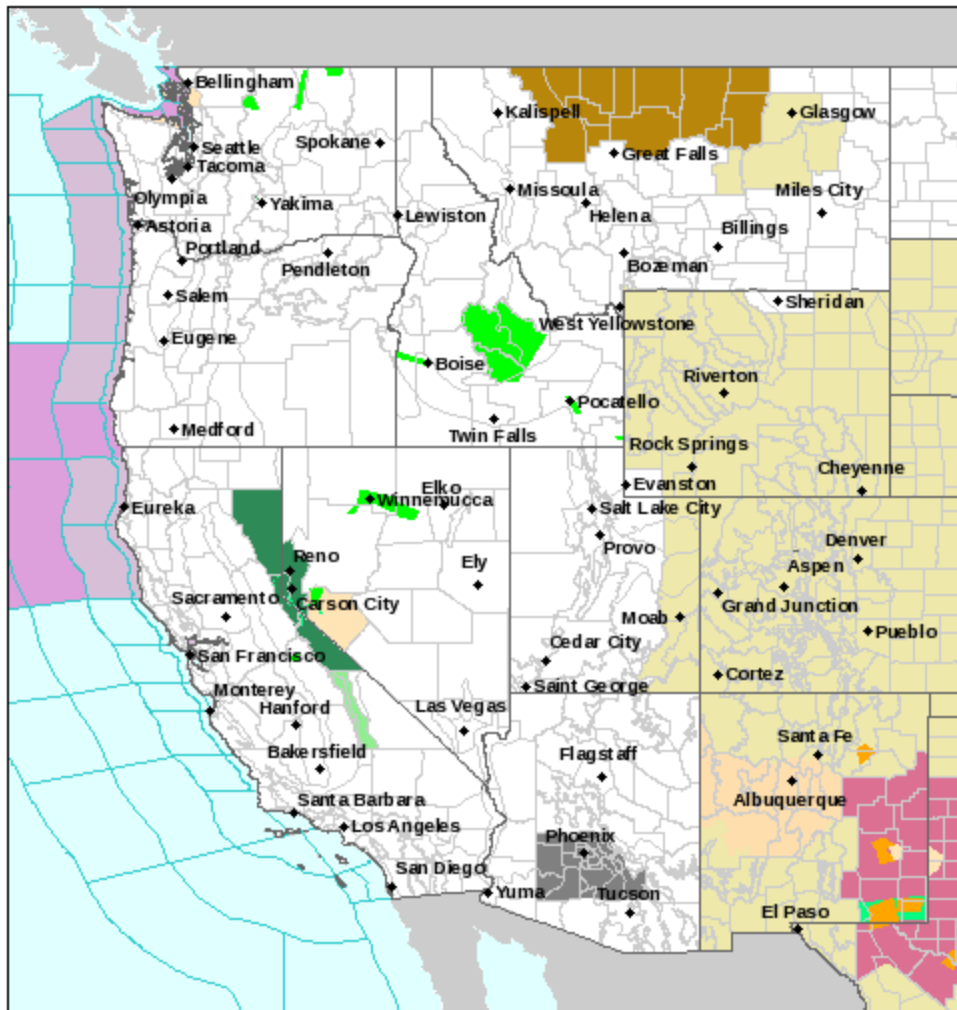

NORTHERN CALIFORNIA

Strong high pressure will be over the region for a few days before weakening some. Afternoon max temps through Tuesday will be just a few degrees over 100 in the warmest inland areas with plenty of other lower elevation inland areas in the mid and upper 90s. Afternoon minimum relative humidity will also be reasonably low today and Tuesday in those areas and winds will be light. The high may weaken a little Tuesday, but Wednesday a trough moving through the Pacific NW will definitely weaken it. That will open the door for a few afternoon cumulus buildups over the northern and eastern mountains with a small chance of a few late afternoon and evening thunderstorms Tuesday, but mainly Wednesday. More late afternoon and evening mountain thunderstorms may become possible Thursday through Sunday, but right now, confidence of that happening is lowest for Thursday and Sunday. The coolest day this week is likely to be Friday with the warmest inland areas dropping into the mid 80s. Some gusty W winds are likely to develop through the Delta Wednesday afternoon with southerly winds picking up but not becoming all that strong through the Sacramento Valley and surrounding foothills. There will also be some northerly winds picking up but not becoming all that strong over much of Siskiyou and Modoc Counties Wednesday. Otherwise areas of gusty afternoon westerly winds will be in place Thursday through the weekend. A trough will be approaching the coast early next week for a cool down and possibly a bit of mountain precipitation.

SOUTHERN CALIFORNIA

There will be little change in the weather through Tuesday as a strong ridge of high pressure sits over California. Maximum temperatures will be well above normal, with upper 70s and 80s across the mountains and 90s to 102 in the valleys. Minimum humidity will be mainly between 12% and 25% away from the coastal areas. Winds will be light, except for when the sea breeze of 10 to 20 mph pushes inland during the afternoons. The ridge will weaken as a Pacific trough drops down the West Coast bringing 5 to 10 degrees of cooling Wednesday. A little instability will allow for a chance of isolated afternoon thunderstorms over the Sierra Crest through Wednesday. The Pacific trough will bring a little below normal temperatures and higher humidity to the region Thursday and Friday. Westerly winds of 20 to 30 mph with gusts to 50 mph will surface across the wind prone mountain and desert areas Wednesday afternoon through the end of this week. Another ridge of high pressure will build northward out of Mexico bringing warming and drying to the area this weekend.

OF EMERGENCY SERVICES

Cal OES LAW ENFORCEMENT MISSIONS

Ongoing Cal OES Law Missions

- **2017-LAW-35891, 05/21/17, 1529 hours,** The Sonoma County Sheriff's Office (SCSO) requested SAR K9's to assist searching for a missing 53 year old female out of Santa Rosa. The MP, who is not in good health and has mobility issues, was last seen on Friday, 05/19/17 walking in an area of rugged terrain. SCSO SAR has been searching since they received the report but thus far are UTL. They are requested 2 Trailing K9 teams for an immediate response. At 1550 hours Cal OES LEB K9 Coordinator advised. **Update: 1707 hours,** Cal OES K9 Coordinator advised two K9 teams enroute with an ETA of 1900 hours. SCSO advised. **Update: 1813 hours,** SCSO cancelled the request for the response due to recently received information that the MP may have been a voluntary walkaway. Cal OES K9 Coordinator cancelled response. Sonoma will advise soon whether they will need dogs for Monday. **Update: 2129 hours,** SCSO requested K9's for Monday at 0800 hours at an undisclosed location in Santa Rosa. Cal OES K9 Coordinator advised and attempting to fill. **Update: 2329 hours,** Cal OES Law Branch secured two teams for Monday; one arriving at 0800 hours, and a second team arriving at 0900 hours. Sonoma SO advised. **Mission Ongoing.**

Closed Cal OES Law Missions

- **2017-LAW-35903, 05/21/17, 2233 hours,** Lake County Sheriff's Office requested helicopter support for a ridge top rescue for 2 motorcyclists stranded and suffering from dehydration and exhaustion. Lake County SAR, who are unable to access the pair due to darkness and the extremely remote area, will have a ground team ready to go in the AM. With no other air ships available, they requested a FLIR equipped, hoist capable helicopter tonight to attempt a rescue. Both motorcycles are disabled; the pair are on foot together at GPS: 39 0057.3N, - 123 0007.4W near Ridge Trail and Bendmore Creek Trail. 2249 hours, Call to CNG/JOC, briefed. Will check on availability. **Update: 2327 hours,** CNG unable to support mission tonight but may be able to support in the morning, if needed. Lake SO advised and does request their assistance. CNG contacted and will evaluate the request when their teams arrive in the morning. **Update: 05/22/17, 0634 hours,** Lake SO advised CHP is available to assist this morning and are cancelling the CNG request. CNG advised. **Mission Closed.**
- **2017-LAW-35885, 05/21/17, 1433 hours,** The IERCC reported a Delorme inReach SOS activation at coordinates: 34° 58' 49" N, 120° 7' 50" W, which plots near the Buckhorn Ridge, one mile from trailhead of Bear Canyon Loop and FR 31W14. The R/O (a 60 year old male) of the device and his son (24 years old) were riding motorcycles when both vehicles became disabled. They messaged that they have been out of water since yesterday, on foot and need assistance. Santa Barbara County Sheriff's Office notified. The SO was able to locate the pair by 1822 hours and by 1945 hours they were removed from the mountain and being escorted by SAR to the CP. IERCC notified. **Mission Closed.**
- **2017-LAW-35877, 05/21/17, 1003 hours,** The IERCC reported a Delorme inReach SOS activation at coordinates: 34° 21.17 N, 117° 50.53 W, which plots on the Pacific Crest Trail between Hwy 2 and Hwy 39. Using the two way messaging capability, the R/O of the device messaged IERCC that he was having an unspecified allergic reaction and needed assistance. Los Angeles County Sheriff's Department (LASD) notified. 0951 hours, IERCC provided new coordinates: 34 21' 24"N, 117 51' 03"W, plotting to Hwy 39 and Hwy 2. LASD notified. **Update: 1029 hours,** LASD called and advised their air unit made contact with R/O and treated him on scene and was released. IERCC advised. **Mission Closed.**

Cal OES MISSIONS

Cal OES Missions

- **2015-IREOC-19846:** One RAWS weather station to Amador OA – On scene 11/30/15, expected to be left in place until May 2017.
- **2017-SOC-34379:** Technical specialist for spillway floor inspections at Oroville Dam, Butte OA – Demobilizing
